ROUNDING
Using Place Value

1. Underline the digit in the rounding place

2. Circle the next digit to the right

3. Follow the rounding rules
   - 4 or less let it rest
   - 5 or more add 1 more

4. Change all digits to the right of the rounding place to Zero

5. All digits to the left remains same

Example: Round 634 to the nearest ten

6 3̲ ④

Rule: 4 or less let it rest, tens place number will remain as it is.

6 3 0

so, 634 rounds to 630
